Scaling new heights, every day and every year, is what Deshun is all about. She intertwines her extensive practical and theoretical knowledge of mountaineering to inspire and motivate both teams and individuals to reach their goals and hence their dreams. Deshun has been a world rated speaker for the past 13 years, both abroad and at home, and continues using her mental mountaineering strategies via her local host, Gemini Consulting, and Inspired Leaders Network. Their roles are to create a platform for current and emerging leaders well into the 21st century. Women empowerment takes on a crucial role in these endeavours.

Executives from around the globe are invited to participate in tackling two of the most famous mountains in the world. Uhuru Peak on Mount Kilimanjaro and Base Camp on Mt Everest herself. No small feat. The pre-climb training and processing, as well as the actual climbs, enable executives to take their teams to new heights. Her company, Deshun Daysel and Associates use their Peak Performance Toolkit, Imprints in the Snow and Tackling the Summit products for ultimate effect.

Deshun will be discussing Tackling the Mt Everest of Cyber Challenges facing Africa
